WORK EXPERIENCE

Freelance

UI/UX Designer

May 2026 - Present

- Providing UI/UX design services to clients, from wireframes to high-fidelity Figma prototypes.
- Upskilling in UX research, product design and AI-assisted design workflows alongside client projects.

Spintly India Pvt Ltd

Margao, Goa

UI/UX Designer

Mar 2024 - Mar 2026

Design System (From Scratch) – Built and maintained a web design system from scratch, standardizing components to improve consistency, reusability and development efficiency.

Cross-Functional Collaboration – Aligned UI/UX with device behavior, backend systems and product workflows by working with cross-functional teams.

Lift Management – Designed floor-based access control flows to regulate and secure movement within buildings.

Attendance Management – Designed attendance tracking with automated, access-linked logs, streamlining how attendance is recorded.

Anti-Passback – Designed controls that prevent credential misuse and keep occupancy tracking accurate.

Partner App (Firmware Collaboration) – Designed app interfaces with the firmware team, matching screens to device behavior and hardware interactions.

Partner Web / Integrator Portal – Designed partner-facing web interfaces to streamline onboarding, configuration and system management.

Pricing Feature (Confidential) – Contributed to the design of a pricing module with structured plans and usage-based configurations.

TekSpotEdu

Bengaluru, Karnataka

Associate UI/UX Designer (Intern)

Jan 2024 - Mar 2024

- Designed responsive interfaces for an Ed-Tech platform using Figma, HTML and CSS, improving mobile usability by 40% and reducing bounce rates by 25%.
- Built a reusable component library in Figma, reducing design time by 35% and improving developer handoff efficiency.
- Built responsive page prototypes in HTML5 and CSS3 to validate designs and support development.

Freelance

Vasco-da-gama, Goa

Graphic Designer/Video Editor

Dec 2022 - Dec 2023

- Created 100+ social media assets (posts, short videos, branded graphics), boosting engagement and reach by 20%.
- Produced a YouTube video using animation, effects and color grading, lifting engagement by 80% and reaching 900k views.
